Independent Auditor's Report

Board of Directors
Paducah McCracken Joint Sewer Agency
Paducah, Kentucky

We have audited the accompanying financial statements of the business-type activities of Paducah McCracken Joint Sewer Agency as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Paducah McCracken Joint Sewer Agency, as of June 30, 2018 and 2017, and the changes in its financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note O to the financial statements, in fiscal year 2018 Paducah McCracken Joint Sewer Agency adopted new accounting guidance, GASBS No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 3 through 8 and schedules of employer's proportionate share of the net pension liability and the net postemployment benefits other than pension liability, and employer contributions information on pages 29 - 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Paducah McCracken Joint Sewer Agency's basic financial statements. The budgetary comparison information on page 33 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2018, on our consideration of the Paducah McCracken Joint Sewer Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Paducah McCracken County Joint Sewer Agency's internal control over financial reporting and compliance.

Williams, Williams & Lentz, LLP

Paducah, Kentucky
October 11, 2018

REQUIRED SUPPLEMENTAL INFORMATION

As management of the Paducah McCracken Joint Sewer Agency (JSA), we offer readers of the JSA's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2018.

Financial Highlights

- Net capital assets increased \$1.7 million (2.5%) over prior FY
- Total net position increased \$478 thousand during the year
- Operating revenues up \$1.2 million (15.0%) over FY 2017
- Debt service coverage ratio above level of compliance at 2.85 for FY 2018

Required Financial Statements

Statement of Net Position - The purpose of the Statement of Net Position is to report all of the assets held and liabilities owed by the JSA. The statement shows the JSA's level of investment in resources (assets) and the obligations to creditors (liabilities). The difference between the assets and liabilities is labeled net position and is similar to owners' equity presented by a commercial enterprise. The purpose of the JSA is not to accumulate net assets, but rather to reinvest in the infrastructure and to build sufficient reserves in the event of an emergency. In general, increases in net position indicate that the financial position of the JSA is improving over time.

Statement of Revenues, Expenses and Changes in Net Position - The purpose of this statement is to identify the revenues generated and expenses incurred by the JSA. The focus of this statement is to help the user identify the operating results of the JSA during the fiscal year. The difference between revenues and expenses is called the change in net position and is similar to net income reported by a commercial entity.

Statement of Cash Flows - The purpose of the Statement of Cash Flows is to analyze the cash receipts and disbursements made by the JSA during the fiscal year. The statement reports cash inflows and outflows resulting from three main business activities: operating, financing and investing. The statement addresses the sources and uses of cash, and the change in cash balances from the previous reporting period.

Total net position	<u>\$ 56,516</u>	<u>\$ 56,038</u>	<u>\$ 478</u>	0.8%

Capital Assets and Long-Term Debt Activity

Net capital assets increased by \$1.7 million during FY 2018. At the close of the current fiscal year, JSA had over \$103 million in undepreciated cost of total capital assets. Capital assets may be acquired through purchase, by the completion of projects (either in-house or by contractors), or by contribution of assets to the JSA by private developers.

JSA was nearing completion on the Reidland Above Ground Storage Tank having drawn \$1.7 million against a current Kentucky Infrastructure Authority (KIA) loan during the fiscal year. Two additional overflow storage tanks were either in the planning stages or nearing construction as of June 30, 2018. The building of these tanks was negotiated as part of the Consent Judgment with the Kentucky Environmental and Public Protection Cabinet and Environmental Protection Agency. The Agency will be in search of funding options in the years to come as they complete additional Consent Judgment projects.

The JSA continues to rebuild and rehabilitate the aging sewer infrastructure as well as extend sewers to previously unsewered and undeveloped areas of the city and county. The JSA is committed to capital investments in infrastructure assets to protect the integrity of, and enhance, the existing sewer system.

Total Liabilities and Net Position

Total liabilities increased during FY 2018 by \$2 million or 7.7% over FY 2017. There was an increase in JSA's net pension liability from \$3.0 million to \$4.8 million, partially due to new reporting requirements.

The JSA's total net position increased by \$478 thousand or 0.8% during FY 2018. Net capital assets less total debt increased by \$669 thousand, but were offset by the \$199 thousand decrease in unrestricted assets.

EXHIBIT 2: Condensed Statements of Revenues, Expenses and Changes in Net Position (in thousands)

	FYE 6/30/18	FYE 6/30/17	Dollar Change	Percent Change

Ending net position	\$ 56,516	\$ 56,038	\$ 478	0.9%

Budget

The JSA conducts its activities in accordance with a budget for operating revenues, operating expenses, and capital purchases. The JSA is required to adopt a budget annually. Through monitoring and review by the JSA Board, the Agency continuously meets its responsibility for sound financial management.

Operating revenues for FY 2018 finished \$1.2 million above the amount for the prior year. Sewer charges comprise the bulk of operating revenues and are billed based on customer water consumption. These charges came in \$309 thousand more than budgeted for FY 2018. Operating expenses came in over budget for the fiscal year finishing \$162 thousand above estimate. This is primarily due to the new pension and insurance reporting requirements mandated by GASB, which were unknown, and not reasonable to estimate, during the development of the operating budget.

JSA received \$81 thousand in capital contributions during the fiscal year. These contributions came in the forms of grant revenue of \$4 thousand and developer non-cash contributions of \$77 thousand.

Results of Operations

Total revenues of \$9.1 million, showed an increase of \$1.2 million or 15.0% from FY 2017. This growth in revenue is due to a rate increase that was effective the last quarter of FY 2017. Total expenses increased \$176 thousand or 2.2% from FY 2017.

EXHIBIT 3: Detail of Operating Expenses (Excluding Depreciation)

Operating Expenses (in thousands)	FYE 6/30/18	FYE 6/30/17	Dollar Change	Percent Change
Salaries, wages and benefits	\$ 2,590	\$ 2,426	\$ 164	6.8%
Chemicals, testing & solids disposal	409	426	(17)	-4.0%
Utilities	802	808	(6)	-0.7%
Material, supplies and repairs	464	508	(44)	-8.7%
Fleet expense	104	92	12	13.0%
Professional fees	82	79	3	3.8%
Billing, collection and bad debts	206	189	17	9.0%
All other	218	220	(2)	-0.9%
Total	\$ 4,875	\$ 4,748	\$ 127	2.7%

Salaries, Wages and Benefits

Salaries, wages and benefits comprise the bulk of operating expenses. These expenses increased 6.8% over FY 2017. However, there were net decreases in salaries, wages and overtime of \$54 thousand, and normal pension costs remained the same. The JSA recorded a \$420 thousand increase in pension expenses over the prior year, partially due to new reporting requirements mandated by GASB. Employees received annual wage increases during FY 2018 and 2017.

Other Operating Expenses

Chemicals, testing and solids disposal showed a \$17 thousand increase from the prior year. Chemical usage amounts and costs vary from year to year based on a variety of factors, including economic conditions and pricing, as well as certain operational parameters which vary due to odor control requirements, treatment plant flows, and the maintenance of the bacterial inventory at the wastewater treatment plants. Solids disposal costs vary primarily based on the treated flow amounts, the efficiency of the wastewater treatment plant digesters and the ability for the City of Paducah's composting facility to efficiently handle the Paducah wastewater treatment plant's fully digested sludge inventory. In times of low composting supply material (i.e. branches, leaves, sticks, etc.) or composting facility equipment breakdown, the JSA is forced to landfill sludge at higher costs. For FY 2017 and a portion of FY 2018, JSA experienced higher costs associated with charges from the City of Paducah for composting. In addition, during both years, JSA was forced to landfill sludge at higher costs for an extended period, due to the inability of the City of Paducah to process sludge at times.

The largest component of utilities expense is electricity costs. Electricity costs vary from year to year based on flows received and pumped. JSA has experienced slightly higher loadings at its Paducah Wastewater Treatment Plant from certain industrial dischargers, which require more electricity to provide for adequate treatment. While this is a cost increase, JSA recoups these costs through surcharges to industrial users.

Materials, supplies and repairs are ordinary and necessary costs incurred to keep the sewer utility process, as well as JSA buildings and grounds, in good working order. This account showed a \$44 thousand decrease from the prior fiscal year. Repair costs vary significantly based on the type, equipment, and location of the work.

The largest component of the material, supplies and repairs category is repairs, which include collection system point repairs, pump rebuilds, and plant equipment repairs. Contract labor is sometimes used for these repairs and is charged to this category, while internal labor for repair work is expensed to salaries and wages. Expenses are categorized using the three main components of a sewer system: pipes, pumps and motors. Expenses decreased in FY 2018 compared to the prior fiscal year. In FY 2017, several above-average cost activities were performed to rebuild pumps, generators, and other lift station and treatment components, which account for that year's increase. These activities were required to maintain the equipment in good working order, and prevent total replacement costs. Repairs were made as follows:

EXHIBIT 4: Repairs by Department (in thousands)

<u>Department</u>	<u>FYE 2018</u>	<u>FYE 2017</u>	<u>Dollar Change</u>	<u>Percent Change</u>
Collection System (pipes)	\$ 201	\$ 214	\$ (13)	-6.1%
Lift Stations (pipes & pumps)	40	69	(29)	-42.0%
Treatment Plants (pipes, pumps & motors)	44	59	(15)	-25.4%
Total	<u>\$ 285</u>	<u>\$ 342</u>	<u>\$ (57)</u>	<u>-16.7%</u>

Fleet expense increased \$12 thousand, or 13.0%, over the prior fiscal year. The JSA maintains a vehicle replacement program to cull the aging fleet and attempt to minimize extensive repair costs.

FY 2018 professional fees were \$3 thousand more than in FY 2017. This account consists of legal and accounting fees, as well as contractual services, containing certain engineering fees and software contractual services. Contractual services were the primary cost increase for FY 2018; however, the costs for this category were \$7 thousand below budget.

Paducah Water provides billing and collection services for the JSA. Bad debt write offs finished as expected at \$67 thousand, or \$3 thousand below budget.

All other expenses totaled \$218 thousand for FY 2018 and included costs for insurance, training and safety, office expense, public education, board of directors' expense and miscellaneous expense. The budget for all other expenses was \$216 thousand.

Debt Service Coverage

Debt service coverage (DSC) ratio is an indicator of the JSA's ability to meet its debt obligations. The JSA Board strives to maintain a minimum DSC ratio of 1.30 times the required debt service payments. For purposes of this calculation, gross revenues include investment income, grant revenues and connection fees, and expenses exclude the deduction for depreciation. The JSA has continued to exceed the minimum DSC ratio set by the board. The Agency's DSC ratio was 2.85 in 2018 and 2.46 in 2017.

Relevant Current Economic Factors and Other Significant Matters

New home construction in the area has been slow which is representative of the current U.S. market. While the area experienced a surge in the construction of apartment buildings during FY 2017, with several hundred units being constructed, that provided for only a temporary surge in connection fees for the JSA.

JSA has begun to see an increase in interest rates, after several years of nearly zero returns. This income will continue to fluctuate with adjustments in rates, due to the nature of JSA's investments.

The Paducah McCracken Joint Sewer Agency entered into a Consent Judgment with the Kentucky Environmental and Public Protection Cabinet and the Environmental Protection Agency in September 2007 to bring combined and sanitary sewer overflows into compliance with Federal and State guidelines. The Agency's Long Term Control Plan (LTCP), a planning document mandated by the Consent Judgment, was approved on October 10, 2016. This LTCP requires compliance within the combined sewers, sewers carrying both storm and sanitary flow, to be completed over a twenty-two year timeframe. The cost to bring the combined system into compliance, as outlined in the LTCP, is \$102 million. This amount does not take into consideration any other capital projects JSA will have to fund over the next twenty-two years. As a result, future rate increases will be necessary to achieve this undertaking. JSA implemented a revision of rates effective March 1, 2016, and July 1, 2017. In addition, JSA has built-in the ability to adjust rates by the Consumer Price Index – Urban (CPI-U) for subsequent years. The JSA strives to utilize sound business principals while meeting the needs of the community and maintaining environmental compliance with Federal, State and local regulations.

The JSA will continue to pursue alternative means of funding in the form of grants and low-interest loans to aid in the funding of the Agency's capital expenditures. The JSA has been successful in securing \$10.2 million in grants from the KIA and the United States Department of Agriculture Rural Development since FY 2005. The Agency was awarded and expended a Delta Regional Authority grant totaling \$100 thousand during FY 2013 and an Economic Development

Authority Grant totaling \$315 thousand in FY 2015. These funds have been expended on projects relating to expansion of the collection system, maximization of flow at Paducah's wastewater treatment plant, the separation of flow from JSA's combined sewer system, various compliance related planning documents, and the Massac Creek Interceptor Project, thus reducing the burden of these projects on JSA ratepayers.

Requests for Additional Information

This report is intended to provide readers with a general overview of the JSA's finances and to show the JSA's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the JSA at 621 Northview Street, Paducah, KY 42001 or (270) 575-0056.

The notes to financial statements are an integral part of this statement.

PADUCAH MCCRACKEN JOINT SEWER AGENCY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017

Note A - Summary of Significant Accounting Policies:

Reporting Entity

The Paducah McCracken Joint Sewer Agency, the "Agency", was established pursuant to Chapter 76 of the Kentucky Revised Statutes. The Agency provides wastewater services to the residents of the City of Paducah and McCracken County, Kentucky. The Agency was established by merging the City of Paducah Wastewater Enterprise Fund with three sewer districts of McCracken County. Substantially all of the assets and liabilities of the separate component entities were contributed to create the Paducah McCracken Joint Sewer Agency effective July 1, 1999.

Accounting Method

The Agency maintains its books and these financial statements are presented using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period incurred.

The financial statements distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with ongoing operations. The principal operating revenues of the Agency are charges for sewer service. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The significant accounting policies, as summarized below, are in conformity with generally accepted accounting principles as applicable to governmental units as prescribed by the *Governmental Accounting Standards Board* (GASB). The Agency applies Financial Accounting Standards Board (FASB) Accounting Standards Codification (Codification) issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

Cash and Cash Equivalents

For the purpose of the Statements of Cash Flows, "cash and cash equivalents" includes unrestricted demand and savings accounts of the Agency.

Accounts Receivable and Bad Debts

Accounts receivable are uncollateralized customer obligations due under normal trade terms requiring payment within 30 days from the invoice mailing date. Customer account balances with invoices dated over 30 days old are considered delinquent. Payments of accounts receivable are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices.

No allowance for doubtful accounts has been provided since it is believed the balance in accounts receivable is fully collectible. Overdue accounts are monitored and written off as necessary. The effect of using this method is not significantly different from results which would be obtained by using the allowance method.

Accrued Unbilled Revenue

Accrued unbilled revenue represents the portion of sewer service provided that was unbilled as of the end of the year.

PADUCAH MCCRACKEN JOINT SEWER AGENCY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017

Note A - Summary of Significant Accounting Policies (Continued):

Inventories

Materials and supplies are carried in an inventory account at cost and are subsequently capitalized or charged to expense when consumed utilizing the first-in, first-out (FIFO) method.

Capital Assets

Capital assets are recorded at cost. Donated assets are stated at fair value on the date donated. The Agency generally does not capitalize assets with costs less than \$1,000. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized.

When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded. Depreciation is provided by the straight-line method over the estimated useful lives of the various classes of assets as follows:

	<u>Years</u>
Utility plant	20-60
Vehicles	5- 7
General plant and office equipment	3-10

Capital Contributions

Capital contributions are derived from two main sources: 1) developers, when they construct and pay for sewer lines and then donate these additions to the Agency; and 2) other governments, in the form of grants or contributions of capital assets. Developer contributions are recorded at fair value when the property is transferred to the Agency and are depreciated over their estimated useful lives using the straight-line method.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Pensions and Postemployment Benefits Other Than Pensions

For purposes of measuring the net pension liability, the net Postemployment Benefits Other Than Pensions (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, pension expense, and OPEB expense information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from the plans' fiduciary net position has been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Reclassifications

Certain reclassifications have been made to the June 30, 2017 financial statements to make them conform to the June 30, 2018 presentation.

Note B - Restricted Assets and Investments:

Restricted assets and investments consist of certificates of deposit and other securities, which have been set aside for the repayment of bonds and notes, for maintenance reserves as required, and for ongoing capital projects. These balances are classified as restricted assets on the statements of net position because their use is limited by applicable bond ordinances and loan agreements.

(Continued)

PADUCAH MCCRACKEN JOINT SEWER AGENCY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017

Note B - Restricted Assets and Investments (Continued):

At June 30, these restricted funds were comprised of the following investments:

	2018	2017
Certificates of deposit - various financial institutions	\$ 397,053	\$ 642,413
U.S. Government money market funds	781,250	527,510
TOTALS	\$1,178,303	\$1,169,923

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as they are needed.

Note C - Deposits and Investments With Financial Institutions:

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Agency's deposits may not be returned or the Agency will not be able to recover collateral securities in the possession of an outside party. The Agency's investment policy requires all investments be made in accordance with applicable legal requirements with consideration of investment safety. Accordingly, the Agency maintains collateral agreements with its financial institutions, whereby deposits are secured with collateral valued at market value. The Board of Directors has authorized the Executive Director to utilize depository institutions located within McCracken County, which have been evaluated by the Board and/or Executive Director and Finance Director.

During the years ended June 30, 2018 and 2017, the Agency's investments include U.S. Government money market funds, demand deposits, and certificates of deposit. The investments are reported at quoted market price, and the bank balance of cash and investments totaled \$13,215,138 and \$12,355,526, respectively, at June 30, 2018 and 2017, with \$0 and \$0, respectively, uninsured and uncollateralized.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the Agency's investing activities are managed under the direction of the Executive Director and Finance Director. Investing is performed in accordance with investment policies adopted by the Board of Directors complying with state statutes. The state statutes authorize the Agency to invest in direct obligations of the United States Government, obligations backed by the full faith and credit of the United States Government, certificates of deposit or other interest bearing accounts issued by any bank or savings and loan institution provided that such investments are insured by the FDIC or guaranteed by the pledge of direct United States Government obligations, bonds issued by the Commonwealth of Kentucky or one of its agencies and instrumentalities, securities issued by any state or local Government of the United States rated in one of the three highest categories by a nationally recognized rating agency, certain mutual funds, commercial paper rated in the highest category by a nationally recognized rating agency, or bankers' acceptances for banks rated in one of the three highest categories by a nationally recognized rating agency.

PADUCAH MCCRACKEN JOINT SEWER AGENCY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017

Note F - Notes and Bonds Payable:

Notes and bonds payable consists of the following:

	2018	2017
Notes Payable:		
Kentucky Infrastructure Authority	\$15,097,324	\$13,789,604
Bonds Payable:		
Sewer Revenue Bonds, Series 2012	4,008,000	4,075,500
Sewer Revenue Refunding Bonds, Series 2014	3,530,000	3,770,000
	22,635,324	21,635,104
Less current maturities	1,159,083	1,121,899
	\$21,476,241	\$20,513,205

During the year ended June 30, 2018, the Agency made a \$1,678,017 draw on a \$2,385,000 note payable to Kentucky Infrastructure Authority. Payments made on the note are interest only until the full amount of the note has been drawn. The balance at June 30, 2018 is included on the thereafter line on the schedule below.

Debt service requirements on notes and bonds payable at June 30, 2018, are as follows:

Years Ending				
June 30	Principal	Interest	Service Fee	Total
2019	\$ 1,159,083	\$ 447,353	\$ 26,415	\$ 1,632,851
2020	1,176,021	426,204	24,709	1,626,934
2021	1,197,723	404,622	22,973	1,625,318
2022	1,220,193	382,816	21,210	1,624,219
2023	1,242,938	359,843	19,414	1,622,195
2024-2028	5,963,848	1,428,882	71,030	7,463,760
2029-2033	5,246,849	783,525	31,579	6,061,953
2034-2038	1,660,650	369,911	3,205	2,033,766
2039-2043	703,500	249,920	-	953,420
2044-2048	826,500	146,630	-	973,130
Thereafter	2,238,019	31,061	-	2,269,080
TOTALS	\$22,635,324	\$5,030,767	\$220,535	\$27,886,626

Notes payable are secured by capital assets and restricted funds. At June 30, 2018, the above notes are payable to Kentucky Infrastructure Authority and are payable in semi-annual installments, including interest ranging from 1.0% to 2.0%. These agreements provide capital project funding utilizing a combination of both long-term borrowing and federal stimulus grant funds from the American Recovery and Reinvestment Act.

During the year ended June 30, 2013, the Agency formally issued Sewer Revenue Bonds, Series 2012, in the amount of \$4,324,000 with the first principal payment due January 1, 2014. The interest rate on the bond is 2.75%, and the bonds require annual principal payments and semi-annual interest payments through 2051. Proceeds from the bonds, which mature January 1, 2051, were used to repay the Rural Water note.

During the year ended June 30, 2015, the Agency formally issued Sewer Revenue Refunding Bonds, Series 2014, in the amount of \$4,220,000 with the first principal payment due January 1, 2016. The interest rate on the bond is variable between 1.75% and 3.00%, and the bonds require annual principal payments and semi-annual interest payments through 2031. Proceeds from the bonds, which mature January 1, 2031, were used to repay the Series 2010 (Build America Bonds) Taxable Sewer Revenue Bonds.

**PADUCAH MCCRACKEN JOINT SEWER AGENCY
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017**

Note F - Notes and Bonds Payable (Continued):

Notes and bonds payable activity for the year ended June 30, 2018, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Long-term liabilities:					
Bonds payable	\$ 7,845,500	\$ -	\$ 307,500	\$ 7,538,000	\$ 309,500
Notes payable	<u>13,789,605</u>	<u>2,132,673</u>	<u>824,954</u>	<u>15,097,324</u>	<u>849,583</u>
TOTAL LONG-TERM LIABILITIES	<u>\$ 21,635,105</u>	<u>\$2,132,673</u>	<u>\$ 1,132,454</u>	<u>\$ 22,635,324</u>	<u>\$ 1,159,083</u>

Note G - Contributed Capital:

For the years ended June 30, 2018 and 2017, the Agency accepted \$76,740 and \$59,240, respectively, of sewer line extensions and a new lift station that were placed into service during the respective years by developers in McCracken County, Kentucky.

Note H - Disclosures Regarding Statements of Cash Flows:

Non-Cash Investing and Financing

	<u>2018</u>	<u>2017</u>
Non-cash investing and financing transactions received during the years ended June 30 were as follows:		
Developer contributions	\$76,740	\$59,240
Undepreciated costs of assets disposed	\$ 704	\$18,119

Note I - Risk Management:

The Agency is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. To handle the risk of loss, the Agency participates in a public entity risk pool offered to the members of the Kentucky Municipal Risk Management Association. Participating members pool their funds in order to provide self-insurance, and, when necessary, third-party insurance, against various public liability exposure.

The Agency is responsible for paying annual and supplementary contributions which are determined by the Board that governs the operation of the pool. The contributions are calculated based on actuarial evaluations, ratings plans, and other analyses of the amounts necessary for the payment of claims and losses.

In exchange, the Agency is provided with payment of all claims and losses incurred, subject to certain terms and conditions such as deductibles and coverage limits. Due to the nature of the public entity risk pool established within this policy, the Agency can receive a distribution of surplus funds in the event of excess pool assets or be assessed in the event of pool shortfalls.
